Date of Response: 9 September 2016

Request:

How many fires have occurred in your county or equivalent operational area during the financial year 15/16 which were caused/you believed to have been caused by white goods appliances e.g. washing machine, dishwasher, tumble dryer etc.?

Please provide a breakdown stating the make and model of the white goods appliances involved in each fire and please also indicate if any loss of life occurred in relation to that fire.

If it does not exceed the time limit I would also like the same figures and breakdown for the financial year 14/15.

Response:

Please find the breakdown to your request in the attached Excel spreadsheet. I can confirm that no loss of life occurred in relation to any of the incidents.
