DATE RECEIVED: 14/12/2022

TITLE / CATEGORY: Incident Statistics – Fire at Waste Management facilities

REQUEST

Statistics on the number of fires your fire service has attended at recycling centres, scrapyards, landfills, and any other waste management facilities since 1st January 2022. If possible, please also highlight any incidents where other regional fire services have been brought in to assist in putting out these fires - this is not completely necessary, but will help us to build a more accurate picture of this year's waste fire incidents. Please provide the information in the form of a word document or pdf.

RESPONSE

Tyne and Wear Fire and Rescue Service attended 6 incidents of fires at waste management facilities since 1st January 2022, with one incident supported by another Fire and Rescue Service.

Any printed documents are considered uncontrolled.
