**FOI REFERENCE:** FOI 23/24 - 161

**DATE RECEIVED:** 20/10/2023

**TITLE / CATEGORY:** Incident Statistics – Domestic fires

### **REQUEST**

Please note: For the following questions, please can you share annual data from 2018 to the present day (latest published data), also split by month if possible. If the request is likely to go beyond the allowed time frame, please respond to the above questions in order of priority.

1. How many fires in the home were reported to the fire service, split by region? (not including garden fires)
2. What were the sources of ignition for fires in the home that took place during this period?
3. What was the number of false alarms for this period?

Clarification:

Could you split it into local authority areas please.

For false alarms, can you just send those that occurred with domestic premises. Could we get those that have occurred within communal areas and within flats

### **RESPONSE**

Please see attached report.

Any printed documents are considered uncontrolled.
